PROMIX

Liquid Premix of Feed Additives / Oral solution

Growth promoter, Immune stimulant + Maximum Protection against Toxin

COMPOSITION: Each 1 litre contains

Yeast extract (dried *Saccharomyces cerevisiae* cell wall) , MOS /Mannan oligosaccharides , Beta 1.3/1.6 glucans , Sorbitol, Propylene Glycol /1,2 Propanediol , Betaine hydrochloride , Inositol , Garlic extract (Diallyl disulphide/Allicin) , Formic acid , Propionic acid , Citric acid , Orthophosphoric acid , DL-Malic acid , Demineralized water

Indication:

Powerful immune stimulant with anti-viral, anti-bacterial, anti-weakness and anti-stress activities, growth and fertility promotor.

Mode of action:

Boost immunity by different ways due to its unique formula

- Stimulates the body immune response by modulating the leukocytes boosting the immunity
- Provides higher local immune response in the gut protecting from diarrhea
- Binds to phagocytic cell making it more active and stimulate the reticulo-endothelial system which increase the amount of macrophages
- Stimulates higher ant body production when used along with vaccine
- Enhances immunity by stimulating interferon production so increase the body defence against viruses
- Has antiviral activity against many viral disease like ND, IB, ILT, IBD, AI and REO
- Has antibacterial activity against many gram positive and gram negative organisms like *E.coli*, *Bacillus* & *Staphylococcus aureus* species and *Pseudomonas* spp.
- Interferes with colonization of intestinal pathogen

Zoomaria S.r.l. Unipersonale

Registered Office: Avenue G. MAZZINI, 31/L - 36100 Vicenza (VI) ITALY

- Increases bile flow and decrease cholesterol levels
- Anabolic effect as its contents with proteolytic activity
- Soothing effect that relieve respiratory distress
- Betaine and Inositol are key metabolites involved in the process of liver functions affecting the influx of free fatty acids to the liver, free fatty acid oxidation, the hepatic secretion of triglycerides and lipid peroxidation. Consequently improving liver function and improves detoxification process in the liver also prevent liver dysfunctions and improves liver enzyme production
- Improves FCR, growth and performance
- Contains MOS and Beta-glucans which have a role in stimulating the immune system as well as having anti-mycotoxin effect through changing the chemical structure of mycotoxin. MOS protect liver and kidney cells from mycotoxin as prevent mycotoxin from accessing to the cell via blocking the cell receptor
- Contains garlic oil natural extract (allicin):
antimicrobial kill many bacteria, fungi and viruses as well as parasite;
kills pathogens like *Salmonella*, *Staphylococcus*, *Aspergillus* and *candida*;
kills pathogenic bacteria more than good one giving opportunity for beneficial bacteria balance;
tonic that can help boost immune system (immune system stimulator);
reduces the sulphur content of the egg giving it slightly different taste;
makes the environment in the gut less attractive to the internal parasite;
improves cardiovascular condition;
increases egg production and produces egg with lower cholesterol level;
reduces fat deposition and normalize lipoprotein balance;
has antithrombotic and anti-inflammatory activity;
has antiviral and antioxidant activity;
- Contains a balanced blend of organic acid and their salts that control the growth of harmful bacteria through lowering the pH value in feed, stomach and intestine.

Dosage and Administration: For oral administration via drinking water

Poultry: 1 ml / 2 liters drinking water

Shake well before use.

Packing: Bottles of 40 x 250 ml per carton box, Bottles of 18 x 500 ml per carton box, Bottles of 12 x 1 litre per carton box; Can of 3 x 5 litre per carton box; Can of 10, 20 and 25 liters
