# Propolis Plus

Liquid Premix of Feed Additives / Oral solution

Powerfull immune stimulant with antiviral activity

## COMPOSITION: Each 1 litre contains

Propolis extract (Flavonoids and Polyphenols), Licorice extract (Glycyrrhiza glabra), Papain extract (carica papaya), Oregano extract (Carvacrol & Thymol), Yeast extract (dried Saccharomyces cerevisiae cell wall extract), MOS, Beta-glucans, Betaine hydrochloride, Inositol, Sorbitol, L-Lysine monohydrochloride, DL- methionine, Vitamin A (Retinyl palmitate), Vitamin D3 (Cholecalciferol), Vitamin E ( $\alpha$ -tocopheril acetate), Vitamin B1 (Thiamine mononitrate), Vitamin B2 (Riboflavin), Vitamin B5 (Calcium D-pantothenate), Vitamin B6 (Pyridoxine hydrochloride), Biotin, Vitamin B12 (Cyanocobalamin), Vitamin PP (Niacinamide), Vitamin B9 (Folic acid), Vitamin C (Ascorbic acid), Vitamin K3 (Menadione sodium bisulfite), Propylene glycol, Demineralized water up to 1 litre.

## Description & indication:

Natural & safe anti-viral, anti-bacterial and immune stimulant

Contains many active materials from natural sources that work in synergism and boost the product efficiency

Contains Sorbitol, Inositol and Betaine that improve liver and kidney function and improve fat metabolism

Contains amino acids and group of vitamins that improve growth and general performance

Boost immunity by different ways due to its unique formula

Increases total plasma protein and gamma globulins

Stimulates the body immune response by modulating the leukocytes boosting the immunity

Provides higher local immune response in the gut protecting from diarrhea

Binds to phagocytic cell making it more active and stimulate the reticuloendothelial system which increase the amount of macrophages

Stimulates higher ant body production when used along with vaccine

Enhances immunity by stimulating interferon production so increase the body defense against viruses

Has antiviral activity against many viral diseases like ND, IB, ILT, IBD, AI and REO

Has antibacterial activity against many gram-positive and gram-negative organisms like E. coli, Bacillus & Staphylococcus aureus species and Pseudomonas spp.

Interferes with colonization of intestinal pathogen

Increases bile flow and decrease cholesterol levels

Anabolic effect as it contains with proteolytic activity

Soothing effect that relieves respiratory distress

Betaine, Inositol as well as Vitamin B complex are key metabolites involved in the process of liver functions affecting the influx of free fatty acids to the liver, free fatty acid oxidation, the hepatic secretion of triglycerides and lipid peroxidation. Consequently, improving liver function and improves detoxification process in the liver also prevent liver dysfunctions and improves liver enzyme production

Improves FCR, growth and performance for all animals and poultry species

**Target animal:** Poultry, cattle, sheep, goat, calves, horse and camel

**Dosage and Administration:** For oral administration via drinking water

1 ml / 4 Liters of D.W. for 3-5 days

Shake well before use

**Packing:** Bottles of 40 x 250 ml per carton box, Bottles of 18 x 500 ml per carton box, Bottles of 12 x 1 litre per carton box; Can of 3 x 5 litre per carton box; Can of 10, 20 and 25 liters

**Storage:** Keep tightly sealed, dry, cool and protected from direct sunlight. Opened packages should be used promptly.

**Origin :** Italy, European Union
